# Bienvenido a Tierra Faro

**Tierra Faro** is a boutique space of profound transformation, where your heart marks the pulse of return to the natural state of your Being: love.

We create **carefully curated spaces** of encounter between the human and the sacred, integrating **ancestral wisdom and contemporary tools** with respect, to bring the expansion of consciousness—clearer perception of oneself and of reality—into everyday life.

We honor the curiosity of the seeker as the impulse toward the most important journey. **That of knowing oneself.**

PURPOSE: AN ENCOUNTER WITH  
YOUR INNER VOICE

# THE VOICE OF YOUR INTUITION

**Intuition** is an encounter to free the body and the mind, transform the perception of the past, reconnect with our inner nature, awaken joy and curiosity for life, and experience sacred rituals in a responsible, loving and sustained way.

More than a sensory experience, this gathering is an opportunity to receive deep information from the unconscious, cleanse the body and prepare the ground for new understandings.

**True transformation occurs when that clarity is translated into decisions, habits and concrete ways of living.**

*This is not a retreat of escape, but a space of presence. A call to slow down, to observe, to allow what is real to reveal itself without effort.*

In THE VOICE OF INTUITION we create a **safe space** where you can immerse yourself in expanded states of consciousness to listen to what lives in your unconscious, and **discover, within yourself, your own answers.**

"True wisdom is in recognizing what is not seen, what we feel in the heart."

**Maria Sabina  
Mexican**

Medicine Woman and Healer,  
Shaman and Poet.  
Precursor of the ceremonial  
and healing use of *psilocybin*  
mushrooms.

*"And always remember: you  
are the medicine."*

APPROACH: AN INTEGRAL PATH OF PREPARATION,  
EXPANSION AND INTEGRATION.

# a call towards deep exploration and healing

**INTUITION** goes beyond a traditional retreat with ancestral medicines. We offer you an experience created to accompany you toward listening to your most subtle voice, where the master plants — such as kâmbó, rapé, sananga, cacao, mushrooms and temazcal — intertwine with ancestral and contemporary practices of integration such as yoga, meditation, breathing, silence and conscious movement.

Our approach, from **Tierra Faro** in co-creation with **Kuraca Ancestral Technology**, is a holistic methodology that accompanies a complete path: preparation and cleansing, expansion of consciousness with psychoactive medicines in natural environments carefully sustained with emotional containment, and integration through practices and tools that bring transformation directly into everyday life, providing a transcendent shift in perspective and lasting tools for your personal process.

# First day

## Arrival & Grounding

The first day is a gateway into this process. We allow ourselves to **release the rush of the outside world and open to the experience**. Through a slow session of yin yoga and Gong sound to relax the nervous system.

We close with a warm ritual with the **obsidian pipe** (tobacco), where we get to know each other and plant the intentions that will guide the retreat.

through vibration.

# Second day

## Purification & Preparation

This day is dedicated to opening space through **purification rites** to prepare the body and mind for the experience with the psychoactive medicine.

We will make a **pagamento** to the Earth, accompanied by a spiritual leader of the Sierra: a gesture to ask permission, honor and give thanks to the territory. This act helps us connect with the environment and prepare ourselves to receive from a place of respect and balance.

Through the kâmbó ceremony, rapé, sananga and the temazcal, we carry out an integral purification that **releases physical toxins, mental blockages and emotional densities**.

**To purify is to let go — so that the medicine can find us more open, lighter and receptive.**

*During these ceremonies, you may experience sweating, physical purging and emotional releases for a deep sensation of relief and mental clarity.*

# Third day

## Expansion & Immersion

**Ancestral Sounds**  
Vibrations that heal and accompany the medicine.

This day invites us to look inward to our Being. The **sacred mushrooms, accompanied by ceremonial cacao, silence and ancestral sounds**, help us see more clearly the emotions, thoughts and memories that influence our way of living.

In a safe environment, this experience allows the **release of emotional burdens, reconnection with one's own sensitivity, and reconnection with the natural capacity for wonder and love.**

*During the ceremony, you may experience intense bodily sensations, symbolic visions, memories or deep emotions and moments of profound connection with nature, the body and life.*

# Fourth day

## Integration & Reflection

**Oracle Messages**  
Guidance of the universe.

This day is dedicated to integrating the experience and allowing the information from the medicine to settle in the body.

We begin with a **walk in silence** to recognize how we feel and observe our thoughts.

With an **offering to the Earth** we give thanks, as a symbolic act of closure and renewal.

The rest of the day invites rest, *contemplation and self-care*: writing, receiving a massage or remaining in stillness.

In the afternoon, a session of **free movement, breathing and cacao** to soften and harmonize the body and celebrate.

# the power of ancestral medicines

- **Ancestral medicines are a direct path from thought to the heart.** Unlike other therapies, they do not remain in reason or information: they take us to deep understanding, to that wisdom that truly transforms mind, body and emotion in everyday life.
- **They allow us to observe our thoughts, patterns and our stories without judgment, with compassion,** opening a portal of love for ourselves and for others, reminding us that everything is connected.
- **We access information stored in the deepest part of the unconscious,** impossible to reach only with the mind.
- **We open ourselves to a change of perspective,** where we tell ourselves new narratives and valuable information is revealed for our growth.
- **These medicines return meaning to life,** reconnect us with the innocence of the inner child and its capacity for wonder.
- **They also teach us to hold discomfort,** to look directly at what hurts and discover that this place, although challenging, is a source of power and growth.
- **ey are deeply empowering,** because they show us that all the answers we seek live within us.
- **They help us lose fear of change,** to trust in the natural movement of life.

## Food and nutrition

We believe that food is also a form of medicine. That is why, during the retreat, we offer conscious cuisine, mainly vegetarian, prepared with fresh, local and seasonal ingredients.

The food is designed to accompany the work with ancestral medicines, respecting the rhythms of the body and favoring sensitivity, clarity and rest. This implies a light diet, with certain restrictions, cared for with attention and discernment.

We adjust to special requirements.

## Facilitators

Our facilitators are professionals with a solid trajectory in working with ancestral medicines, integrative therapies and human development. Each one has made this path their living experience: they walk it, study it and embody it in their day to day.

Their presence combines knowledge and sensitivity. But, above all, their strength is in the warmth and authenticity with which they accompany — from example, not from discourse — creating a safe and human environment where each process can unfold at its own rhythm.

“This retreat, for me, was a beautiful reminder of what we can do when we unite, accompany each other and hold one another as human beings.”

## Ivo, Alemania Intuición 2025

“In the niños santos ceremony, I felt at home within myself for the first time.”

## Laura, Colombia & Germany Intuición 2025

“From the first day I felt that everything was thought out with intention. Arriving at the foothills of the Sierra Nevada and beginning with the pagamento was very powerful. We asked for permission and blessing accompanied by a Kogui community.

I felt safe, supported and very cared for in my first Kambô ceremony and during the work with the niños santos, in a spectacular maloca, surrounded by feminine energy and nature.

This retreat reconnected me with my country after many years away; I felt welcomed, at home. Now we are family. It was a gift from the soul.”

# Testimonials 2024

**Andrea, Colombia**  
**Intuición 2024**

“In 2024 I had the fortune of having my mother by my side, who for my birthday gave me and shared with me the wonderful experience of the Intuition retreat.

Words are not enough to describe how liberating it can be to understand ourselves, to enter our darkness, understand it and release it with love. Being compassionate with myself was one of the many things this incredible experience gave me. Always grateful.”

**Jose, Colombia**  
**Intuición 2025**

“What I liked the most was discovering the power of the medicine. Realizing that it comes from the Earth, created by God as a tool for introspection.

I was impressed to realize the noise we carry inside and how, if we want, we can silence it and live in a simpler and calmer way. It allowed me to see my feelings with greater clarity.”

**Sophie, France**  
**Intuición 2024**

“The energy of the team was something truly beautiful and constant, which allowed surrender and inner work with peace and light. This place, in the Sierra Nevada, deeply invites healing the patterns of the past.”
